Citigate Cunningham Wins Three Strategic High-Tech Accounts

Strong New Business Momentum Continues in 2006

SAN FRANCISCO – December 4, 2006 – Citigate Cunningham, the strategic public relations firm serving leading high-technology clients, recently won three new client engagements after competitive reviews, continuing its strong new business momentum in 2006.

Citigate Cunningham has been signed as the agency for SurfControl plc. SurfControl provides a portfolio of security solutions to protect customers from Internet threats, deliver business and regulatory compliance, and enable business continuity. All of SurfControl's solutions for Web, e-mail and endpoint security are backed by industry-leading threat detection technologies, delivered by SurfControl's Global Threat Experts who work 24/7 to provide customers with dynamic zero-day protection.

NeuStar selected Citigate Cunningham to enhance its public relations efforts and support its strategic business objectives. NeuStar provides central directory services that define and enable communications across disparate voice and data networks, helping global network operators significantly reduce costs, speed up time to market for new services, and grow business in lasting ways.

Citigate Cunningham was also appointed as the agency of record for PeakStream, Inc. a leading software application platform provider for the high performance computing (HPC) market. Its PeakStream Platform makes it possible to easily program new high performance processors such as multi-core CPUs, graphics processor units (GPUs) and Cell processors, converting them into radically powerful computing engines for exponentially increased application performance and decreased time-to-solution at reduced cost. The company is backed by Kleiner Perkins Caufield & Byers, Sequoia Capital and Foundation Capital.
